To the Honourable the Commons of the United Kingdom of Great Britain and Northern Ireland in Parliament assembled.

The humble petition of the residents of Bristol,

Sheweth,

That they bear witness to the threats of climate change, and believe that firm action is needed to reduce emissions of carbon dioxide and other greenhouse gases.

Wherefore your Petitioners pray that your honourable House appeals to Her Majesty's government, in its drafting of a Climate Change Bill, to introduce a target for the reduction of Carbon Dioxide emissions by at least 80% of 1990 levels by 2050, to include in this target emissions from aviation and shipping, and to require intermediate annual targets for the reduction of emissions.

And your Petitioners, as in duty bound, will ever pray, &c.
